STP Series

Hot Water Pressure Washer

Electric Powered | Direct Drive Pump | Portable

The STP is an extremely popular, economical alternative for an electric-powered hot water pressure washer. While compact in size, the STP provides extra-rugged protection with Shark's unique heavy-duty roll cage made of 1 1/4-inch steel and painted with an epoxy powder coat finish. The frame and chassis come with a limited lifetime warranty. The three models, with electrical configurations of either 120V or 230V, provide cleaning power of up to 2000 PSI and feature a premier direct-drive crankcase pump, an industrial-grade Baldor motor and high-efficiency burner. The STP is especially popular among industrial customers because of its size and portability, riding on four tubed pneumatic tires.

Easy-to-understand illustrated **operating instructions** for multi-lingual operator and owner protection

Durable **hot water coil** made of 1/2-inch, Sch. 80 steel pipe and cold rolled for years of leak-free operation; with **stainless steel coil wrap** and **easy coil access** design

Rugged chassis and roll cage with a limited lifetime warranty is made of 1 1/4-inch steel and painted with an **epoxy powder coat finish** for all-weather resistance

Easy-grip handles and lifting point on roll cage makes for easy handling and maneuvering

Heavy-duty, insulated **trigger gun** with fatigue-free handle, rated for 4500 PSI

Enclosed **control panel** with automatic thermostat, hour meter and burner on/off switch

Quick-release couplers and tangle-free, swivel crimp fitting positioned on hose for ease of operation

Chrome plated **steel wand** has adjustable, easy-grip handle for hours of fatigue-free washing and **remote adjustment** of the pressure

Safety **rupture disk** attached to discharge side of heating coil protects against excessive pressure

Easy-to-attach downstream **detergent injector** with brass soap nozzle

7 YEAR PUMP WARRANTY
Durable, triplex, oil-bath, **high-pressure pump**, with three ceramic pistons and forged brass manifold, backed by an industry-leading warranty

High-quality, **high-efficiency burner** with transformer for years of reliable and affordable operation

36 ft. **electrical cord** with **ground-fault circuit interrupter** for operator safety

Rust-free, 6 gal. **polyethylene tank** for diesel heating fuel delivers hours of uninterrupted operation

Vibration-absorbing 13" tubed **pneumatic tires** for easy maneuvering on all terrains and absorbing vibration

U-Seal Technology

Crankcase pumps now feature new U-Seal technology, giving pumps longer life and better performance.

Certified to UL-1776 Safety Standards

All Shark production plants are ISO 9001 certified

50 ft. of **wire-braid hose** rated for up to 4500 PSI, with **safety hose guard** for burst protection

Safety **thermal pump saver valve** protects against hot-water damage by venting recirculated water

High-quality, tamper proof **unloader valve** for operational safety

STP

Rugged and compact hot water cleaning

The #1 portable and affordable electric-powered hot water pressure washer

The Shark STP Series is a heavy duty electric-driven hot water pressure washer designed for tough environments. The roll cage chassis protects vital components from rough handling and the pneumatic tires makes it easy to move around farm areas, factories and construction yards.

DETERGENTS Fast-cleaning, commercial-grade

Custom formulated especially for pressure washers

Shark's biodegradable detergents are highly concentrated to deliver an extra-fast and economical dimension to your cleaning effectiveness. Engineered specifically for use with hot and cold water pressure washers, Shark detergents are available in a variety of formulas and sizes to suit your cleaning needs and budget.

CYCLONE SURFACE CLEANER

Attaches to a pressure washer to clean flat surfaces faster

The optional Shark Cyclone attaches to a hot or cold water pressure washer (up to 175°F) to clean flat surfaces as much as three times faster than with a wand. Featuring a self-lubricating rotary union, the spray bar whirls at a rate of up to 2000 RPM. It's lightweight with a polyethylene housing and has two pneumatic tires and a sealed swivel caster for easy maneuvering in tight places.

WHY SHARK

Rental Tough

Originating over 20 years ago, Shark pressure washers were developed to withstand the most demanding environment - the rental industry - where durability and reliability are tested to the max. Today, Shark's dominating reputation for ruggedness and safety, as well as the strongest warranty offering in the cleaning industry, is recognized by a broad array of cleaning professionals and commercial contractors.

More than 80 hot- and cold-water models!

Here are the Top 6 reasons Shark is America's #1 name in pressure washers

Shark's broad line of pressure washers and accessories allow customers to reap the benefits of a one-stop shop for pressure washer supplies, such as:

1. More than 40,000 different replacement parts and accessories in stock or ready to order when you need them most;

2. A huge selection of more than 80 hot- and cold-water pressure washers;

3. Competitive pricing on hoses, guns, wands, nozzles, repair kits, and pressure washer components;

4. Stainless steel coil wraps that now come standard on nearly all of our hot-water pressure washers;

5. A wide selection of detergents formulated specifically for pressure washers, including the new portion packs that come in self-dissolving bags for easy storing and mixing;

6. A handy and affordable Shark Parts Box that puts the most often needed pressure washer parts at your fingertips.
